ADVISORY No. 112 s. 2026  
 April 15, 2026

In compliance with DepEd Order (DO) No. 8, s. 2013 this advisory is issued not for endorsement per DO 28, s. 2001, but only for the information of DepEd officials, personnel/staff, as well as the concerned public.

**INVITATION TO PARTICIPATE IN "EARTHLINGS: A SCIENCE-THEMED ENVIRONMENTAL AWARENESS PRODUCTION"**

The Earthlings Program, the country's first science-themed light show, is an innovative environmental awareness initiative that promotes Environmental Protection, Sustainability, and Climate Consciousness among learners. Anchored on Republic Act No. 9512 or the National Environmental Awareness and Education Act, the program aims to develop learners' understanding of environmental issues and encourage responsible decision-making.

This initiative is supported by various reputable organizations, including the International Astronomical Union (IAU), United Nations Educational, Scientific and Cultural Organization (UNESCO), National Aeronautics and Space Administration (NASA), UP Astrosoc, DOST, and DENR, and is recognized under DepEd Advisory No. 098. It provides an engaging platform that integrates science, arts, and immersive learning experiences to foster curiosity, appreciation for STEM, and environmental stewardship.

The program is proposed to be conducted across participating schools and divisions for the entire School Year 2026–2027, subject to coordination and scheduling with concerned offices. Through interactive and experiential activities, it highlights the interconnectedness of living systems and promotes both indoor and outdoor learning opportunities. The organizers respectfully request the support of schools in facilitating learner participation. Further details are provided in the attached document.

The organizers respectfully request the support of schools in facilitating learner participation in this program. Participation shall be voluntary and must not disrupt instructional time, in accordance with DO 9, s. 2005 and the policy on off-campus activities under DO 66, s. 2017. Immediate and wide dissemination of this Advisory is desired.

10 April 2026

**DR. GILBERT T. SADSAD**  
Regional Director  
DepEd Region V  
Rawis, Legazpi City, Albay

Dear Sir,

Warm Greetings!

In a world where environmental degradation is a growing concern, it's more critical than ever for people to understand the importance of **Environmental Protection, Sustainability, and Climate Consciousness** helping learners understand and address environmental issues and empower them to make responsible decisions as declared through **RA No. 9512 the National Environmental Awareness and Educational Act**.

In light of this, I would like to introduce our new program - **Earthlings**. This year's **Philippines' First-Ever "awe-spining"** call-to-action **Environmental Awareness Production**. All our programs are in support of the International Astronomical Union (IAU), United Nations Educational, Scientific and Cultural Organization (UNESCO), National Aeronautics and Space Administration (NASA), UP Astrosoc, DOST and DENR. In addition to this, DepEd National highly supports this partnership through DepEd Advisory No. 098.

A creative and engaging way of bridging the gap between the analytical brain and the emotional heart. This emphasizes the integration of environmental education across all levels through activities that targets learners' ability to understand how all living things are interconnected, promote scientific curiosity, foster love for STEM subjects, and the need to preserve the planet for the next generations. An outbox innovative curriculum integration combined with outdoor (*outside the classroom*) immersive learning portals.

Thus, is our request from your good office to extend your unwavering support on this noble engagement for your learners. Attached on the following page are the specifics of our activities.

It's with great honor and pleasure to partner with you and numerous other reputable educational institutions on this endeavor for the school year 2026-2027. We believe that through your leadership our consolidated program will come into reality.

Enthusiastically Yours,  
fn: *J. Tunac*  
Godofredo A. Tunac Jr.  
Program Director

### Program 1

**Activity 1: LUMINA** – A twenty-minute luminescent **edutainment** woven to illuminate our minds by connecting the bridge between the Arts, Music, and Science.

**Activity 2: World of Wonders** – Hands-on gallery of engaging optical illusions and life-sized gadgets learners can manipulate and explore.

**Activity 3: Interactive Floor** - Motion-responsive games and activities for all ages which perfectly demonstrates how advanced our technology has now become.

### Program 2

**Activity 1: Digital Planetarium** - Display the process of creation dynamics, and its basic components in which matter got its model or existence, development, and extinction in a modern digital manner. Helping students grasp abstract astronomical concepts in light of sparking their enjoyment and interest in science.

**Activity 2: NASA Photo Gallery** - Three-Dimensional (Anaglyph) Display of Astronomical Photos with Description.

**BONUS: Authentic Meteorite Display (Hands-On Experience)** - A rare experience of hands-on observation of authentic meteorite fragments for students.
