MEMORANDUM

TO: Schools Division Superintendents

FROM : 
 GILBERT T. SADSAD
 Regional Director

SUBJECT: SUGGESTIONS ON ASSIGNING SENIOR HIGH SCHOOL TEACHERS TO HANDLE PRACTICAL RESEARCH 1 AND 2

DATE: July 16, 2020

DEPARTMENT OF EDUCATION
 REGIONAL OFFICE NO. 5
 RAWIS, LEGAZPI CITY
 JUL 20 2020
 RELEASED

010965

Relative to the criteria set by schools in assigning Senior High School teachers to teach Practical Research 1 (Quantitative) and Practical Research 2 (Qualitative), the following are suggested for consideration:

- a. teacher's expertise to teach the required learning competencies;
- b. teacher's competence to teach research process within the context of the track or strand; and
- c. teacher's related trainings and professional development.

Schools should take note that Research 1 and 2 are applied or contextualized subjects that all Senior High School students should take. These are designed to focus on the specific applications of the students' chosen track or learning strand.

The Senior High School subject groups per DepEd Order No. 3, s. 2016, Hiring Guidelines for Senior High School (SHS) Teaching Positions Effective S.Y. 2016-2017 included Practical Research I in Group I-A with subjects along English (Oral Communication, Reading and Writing, English for Academic and Professional Purposes). This grouping was used as basis in the preparation of the SHS Registry of Qualified Applicants, while Practical Research II was lodged with Math subjects as reference in the clustering of participants during the regional mass training of SHS teachers. The schools then, may consider the subject groups in assigning those who will teach Practical Research. However, teachers who come from other subject groups may also be assigned to teach the subject (Practical Research) provided that they are qualified.

Further, schools' divisions are reminded to monitor the teachers' assignments and teaching loads in Senior High Schools. These have impact on students' learning and achievements.

For guidance and immediate dissemination.
