

MESSAGE

DR. LOIDA N. NIDEA, CESO V
Schools Division Superintendent

On behalf of the other officials of SDO Sorsogon, I take joy and pride in congratulating you all, completers/graduates for SY-2018-1019 of (name of school) as well as your school head, teachers/advisers, parents and guardians for this very special milestone in your lives! I am confident that our beloved teachers with the support of the non-teaching, personnel, have equipped you with all the necessary knowledge, skills and attitudes.

This year's graduation theme: "Unity in Diversity: Quality Education For All" affirms that even if you – completers and graduates come from different walks of life, you hurdled the challenges on how to co-exist with peers, colleagues and friends and earn the competencies that will make you proficient and competent as entrepreneurs, employees or college students. Surely, with our unified efforts to provide you with wide array of learning experiences – vicarious and contextualized, you widened your points of view about life, cultures and traditions, understood and respected individual differences. Please remember that while you embrace changes and challenges besetting the world today, you need to always reconnect with your roots and think on ways on how to integrate education and family values with community development. Through that, we are assured that indeed you had the best education from your Alma Mater. I therefore commend the synergy between and among, the school and its stakeholders. The efforts and resources they put in education all aim at developing you, who will contribute meaningfully to building the nation. Thank them for all opportunities given you. Their support, sacrifice and aspirations for you paid off today as you receive your certificates/diplomas.

My dear teachers and school heads, the Schools Division of Sorsogon will continuously inspire and give technical assistance as you go forth and realize our mission to provide all Filipino learners quality, relevant, inclusive and liberating, education that will empower them to survive in this digital and changed world. Continue initiating programs, projects and activities that will produce completers/graduates who are God-fearing, patriotic, nationalistic, disciplined and proud of his/her capabilities as Filipino.

Completers/ graduates, succeed and be part of the mission to improve the Philippines in whatever role you will assume and wherever you will be destined to be.

Congratulations and God bless us all!
